Built From the Foundation Up

Most treatments only focus on one layer of the face.
But real lifting and long-lasting results happen
when every layer is treated in the correct anatomical order.

Our clinic treats the entire facial structure
from deep foundation to surface skin .

Step 1: The Basement (Bone & Deep Fascia):
Realign and stabilize the structural foundation first.

Step 2: The Scaffolding (Muscle & SMAS):
lift and tone the sagging muscular network.

Step 3: The Volume (Fat Layers):
Restore balance and optimize natural circulation.

Step 4: The Roof (Skin):
Finish with surface rejuvenation on a fully supported.

Personalized Acne & Acne Scar Care from Within, Restores Healthy Skin at the Root.

Scar Regeneration Treatment

⌚ Duration: 30min

Scar tissue has very low natural regenerative ability. Our regenerative acupuncture treatment helps reactivate the skin's healing process by stimulating collagen and tissue regeneration from within.

- ✓ Stimulate natural skin regeneration
- ✓ Improve damaged scar tissue
- ✓ Boost collagen production
- ✓ Improve skin texture & recovery

Stretch Mark Regeneration Treatment

Stretch marks happen when the skin tissue tears from rapid stretching.

Because the tissue is damaged underneath the skin, true treatment requires regeneration from inside.

Regenerative Acupuncture Treatment

🕒 Duration: 50min

What's included?

Unlike lasers with fixed depth settings, our doctors customize the acupuncture depth based on each stretch mark condition to stimulate natural regeneration.

- ✓ Stimulate natural tissue regeneration
- ✓ Improve damaged stretch mark tissue
- ✓ Support collagen production
- ✓ Customized depth treatment based on skin condition
- ✓ Improve skin texture & elasticity
